ROYALTON SCHOOL

Pupil Privacy Rights

It is the intent of the Board to comply with the provisions of the federal Pupil Privacy Rights Amendment (PPRA) governing the administration of certain student surveys, analyses or evaluations funded in whole or in part by the U.S. Department of Education.

Definitions

As used in this policy, the following terms shall mean:

"Invasive physical examination" means a medical examination that involves the exposure of private body parts or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision or scoliosis screening.

"Personal information" means individually identifiable information including a student's or parent's name, address, telephone number, or social security number.

"Instructional material" means instructional content that is provided to a student, regardless of format. It does not include tests or academic assessments.

"Parent" means a natural or adoptive parent, a legal guardian or other person standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of a child).

Student Rights

The rights provided to parents under the Pupil Rights Amendment and this policy transfer to the student when the student turns 18 years old, or is an emancipated minor under applicable Vermont law.

Policy

1. No student shall be required, without parental consent, to take part in a survey, analysis, or evaluation funded by the U.S. Department of Education that reveals information concerning:

- a. political affiliations or beliefs of a student or a student's parents;

- b. mental or psychological problems of a student or student's family;
 - c. sex behavior or attitudes;
 - d. illegal, anti-social, self-incriminating and demeaning behavior;
 - e. critical appraisals of other individuals with whom student respondents have close family relationships;
 - f. legally recognized privileged or analogous relationships, such as those of lawyers, physicians or members of the clergy;
 - g. income (other than that required by law to determine eligibility for participation in a program for receiving financial assistance under such program; or
 - h. religious practices, affiliations, or beliefs of the student or the student's parents.
2. Parents shall have the right to inspect any survey created by a third party before the survey is administered or distributed to a student. Requests for inspection shall be in writing, and shall be made in sufficient time to allow a response at least two weeks in advance of any survey to be given..
3. Parents shall be notified at least annually, at the beginning of the school year or when enrolling students for the first time in district schools, of this policy. The notification shall explain that parents/guardians, or students 18 years of age or older, have the right to "opt out" of the following activities:
- A. the collection, disclosure and use of personal information gathered from students for purpose of marketing or selling that information. This does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational services for, or to, students.
 - B. the administration of any survey not funded in whole or part by the U.S. Department of Education that includes the eight subject areas listed in paragraph 1 above; or
 - C. the administration of any non-emergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school not necessary to protect the immediate health or safety of a student or other students and not otherwise permitted or required by state law.

4. In addition, parents shall be notified, through U.S. Mail or other direct means, at least annually at the start of each school year, of the specific or approximate dates of any activities described in sub-paragraphs A-C of paragraph 3 above, and shall be provided an opportunity to opt out of participation in those activities.

5. Parents shall have the right to inspect, upon request, any instructional material used as part of the educational curriculum.

6. It is the policy of the school to conduct routine, non-invasive physical examinations for the purpose of measuring height and weight, checking vision and hearing, conducting scoliosis screening, checking for head lice, and providing nursing services to ill or injured students. Further, if a student is suspected of being under the adverse influence of alcohol or a drug, it is the policy of the school to check pupil dilation/reaction, blood pressure, and pulse rate to determine if immediate health care is required. Such suspicion must meet any test of reasonableness contained in related school policies. In such cases, reasonable attempts to consult with the parent before examining the child will be taken.

7. Nothing in this policy shall be construed to prohibit school nurses from responding to students' medical needs or from determining that a student needs to be referred for medical treatment. It is the policy of the school for nurses to provide appropriate nursing services, first aid, and triage to ill or injured students.

8. The superintendent or his or her designee shall develop administrative procedures as required to ensure implementation of this policy.
